

Product ID VED0070

Description

Townscape Flex HVM fully bespoke planter system is a modular system made of powder coated mild steel or corten steel. Straight corners or curved corners are available. Townscape HVM CT Blocks will be installed within the planter walls (VED/0044, see page 6 for speed ratings). Using the standard sizes or bespoke sizes virtually any space can be filled with a planter. All Retaining walls are required to be at least 600mm high to fully cover the CT blocks.

Any questions regarding the Flex HVM Planter system please contact the sales team.

Installation

Surface should be flat . Lift planter into position. Place into the base of the liner Terram 1000 or equivalent filter membrane. Add 150mm of pea shingle to the bottom of the planter. Add additional water reservoir if needed. Plant using the specified medium and plant from the horticultural specialist.

Townscape
 CT Block
